

GIANNESCHI

pumps and blowers

Self priming centrifugal bronze ell/pumps ACB Series

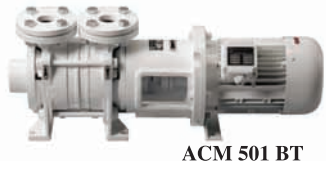

Uses: Bilge, fire-fighting, intake diesel oil and liquids, chain washing

Self priming centrifugal bronze ell/pumps CP Series

Uses: Bilge, fire-fighting, intake diesel oil and liquids, chain washing

Self priming centrifugal bronze ell/pumps ACM Series

ACM 501 BT

BMA Series

BMA 50

Uses: Bilge, fire-fighting, intake diesel oil and liquids, chain washing

Self-priming engine driven clutch pumps FC - FS Series

Uses: Bilge, fire-fighting, chain washing, circulation

Self priming gears ell/pumps

Uses: Intake lubricant and diesel oil

Gear pump oil groups with manifolds, by-pass valves and switch

Uses: Intake lubricant and diesel oil

Heavy liquids single screw bronze ell/pumps MVI - MVG Series

Uses: Emptying of wastes, wc draining (black water)

Hand Pumps

Uses: Fresh and sea water pumping, emptying bilge, emergency, intake diesel oil and oil

Water pressure system with automatic running

Uses: Pressure water distribution

2 El/Pumps groups

Uses: Pressure water distribution

Control Press C.E. 2 ell/pumps

2 Ecoinox 1 C.E.

Uses: Pressure water distribution

Control pump group

Group ACB 332

GIANNESCHI

pumps and blowers

ELL series axial fans

ELL 250/2

ELL/R 400

ELL 710

Uses: Air suction and ventilation in engine rooms and compartments

High performance axial el/blowers

ELL/AP

Uses: Air suction and ventilation in engine rooms and compartments

High efficiency helicoidal el/blowers

EL-SR

Centrifugal el/blowers C Series

C 503 A

C 20

Uses: Air suction and ventilation in closed rooms, engine rooms, gallery, wc

Centrifugal el/blowers CCP-VCR Series

VCP

VCR

Uses: Air suction and ventilation in engine rooms and compartments

Smoke-dampers and fire-dampers

Uses: Smoke damper with pneumatic actuators

Uses: Fire damper with electric actuators

El/blowers accessories

Adaptor square round

No vibration rings

AISI 316 stainless steel water heaters

Boilers Series

Uses: Water heating

Bronze water circulation pumps

UP 20

Z 40

Uses: Water circulation

Control fan system with touch screen panel

Uses: Variable speed ventilation control system

For example, here below some installation suggestions
